# COMPOSITE PLAN

NOT TO SCALE

36310 05/03/2019

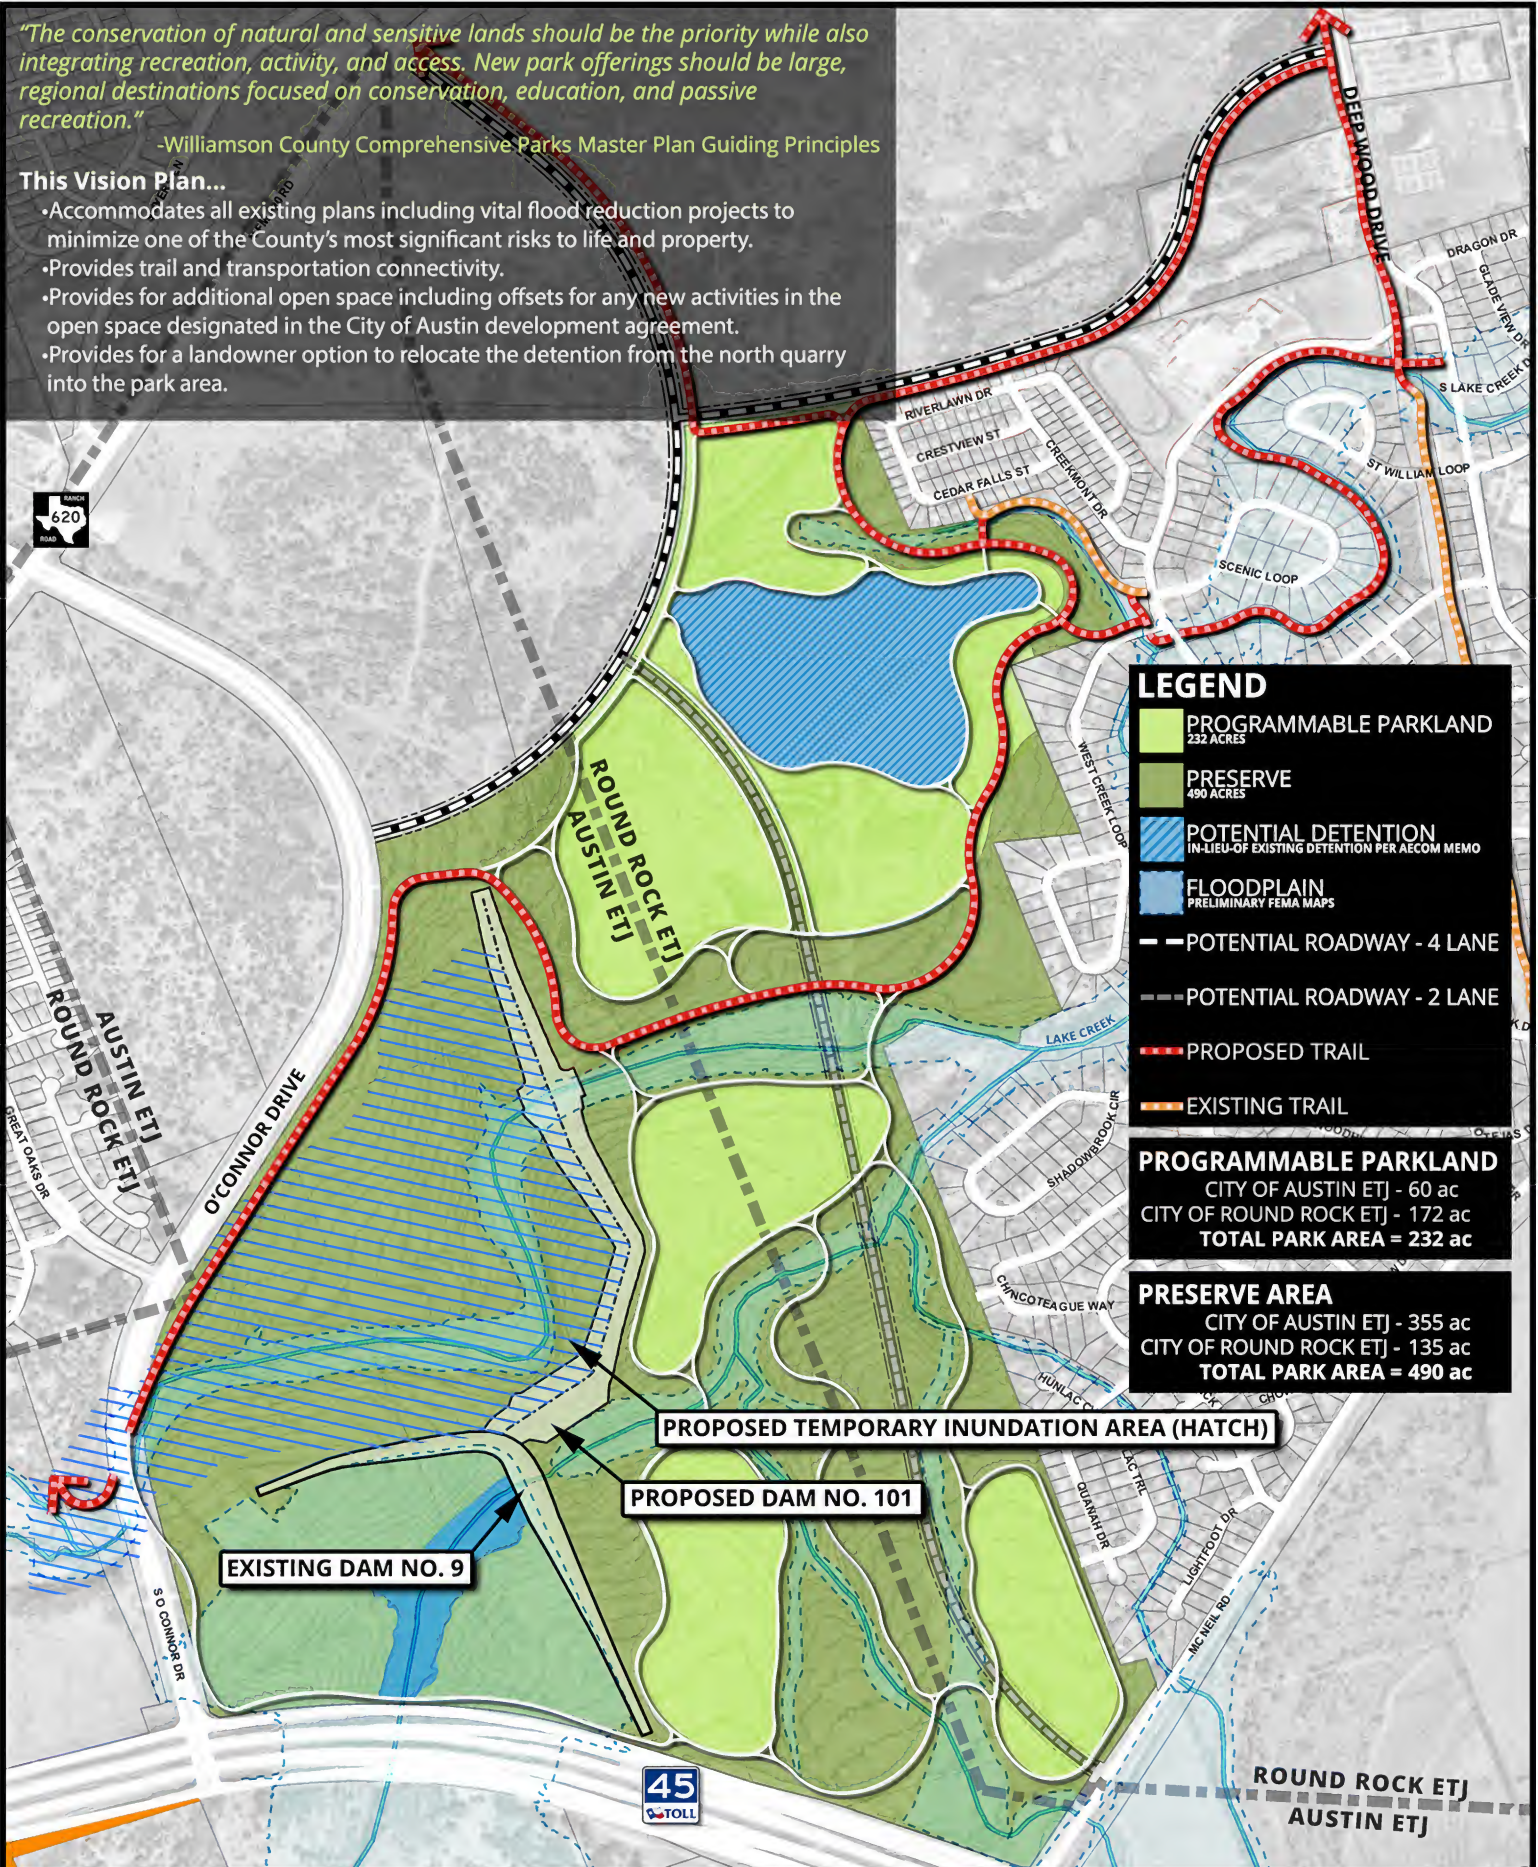

*"The conservation of natural and sensitive lands should be the priority while also integrating recreation, activity, and access. New park offerings should be large, regional destinations focused on conservation, education, and passive recreation."*

-Williamson County Comprehensive Parks Master Plan Guiding Principles

### This Vision Plan...

- Accommodates all existing plans including vital flood reduction projects to minimize one of the County's most significant risks to life and property.
- Provides trail and transportation connectivity.
- Provides for additional open space including offsets for any new activities in the open space designated in the City of Austin development agreement.
- Provides for a landowner option to relocate the detention from the north quarry into the park area.

### LEGEND
